SUMMARY

A Computer Science fresh graduate with profound knowledge in the Computer Science field such as theoretical problem solving and fundamentals of computing. Wishes to integrate his problem solving skills for the practical application in the world and to also give helpful contribution in the field of computing. And is always eager to learn new technologies and frameworks and is made easier through his understanding of concepts.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, Javascript, PHP, HTML/CSS

Frameworks: NodeJS, Flask, React, Vue, Express, Laravel TailwindCSS, Bootstrap

Libraries & Tools: Visual Studio Code, NumPy, Git, Docker

Other Tools: Adobe Illustrator, Adobe AfterEffects, Canva

EXPERIENCE

Software Developer Intern

August 2024 – November 2024

Fortress Tech and Creative Solutions

VueJS, Laravel, PHP

- Developed a booking and ticketing system for a musical play that would be utilized by the company
- Learned and used new frameworks
- Worked alongside with other software developers and collaborated not only with developers but with other departments

PROJECTS

StruktAR

August 2024 – May 2025

Gamified AR Application for learning Data Structures

Unity, Supabase, Vuforia

- Design, implementation and testing of a gamified mobile AR application for learning data structures for computing students
- Utilized Unity Engine for the overall application
- Used Vuforia for implementing the Augmented Reality functionalities
- A thesis proof of concept that yielded positive results in the students' learning and motivation

Fortress Tech and Creative Solutions Website

August 2024 – November 2024

Booking System

VueJS, Laravel, PHP

- Developed a booking and ticketing system for customers who wish to book in the company's musical play
- Also developed a landing page that showcases the company
- Utilized VueJS and Laravel for the application following an agile methodology with constant meetings
- Tried integrating API for payment gateways

Ang Bookkeeping

Jan 2024 – May 2024

Bookkeeping System

NodeJS, React, Express

- Developed a bookkeeping system for a real client that can record transactions and its corresponding departments
- Utilized Test Driven Development
- Achieved a sophisticated and functional bookkeeping website application that is deployed online

Wizard Realty

Aug 2023 – Dec 2023

Property System

Python, Flask, Bootstrap, Supabase

- Developed a property monitoring system that can track and list properties for a fictional client
- Utilized Software Development Life cycle
- Successful connection between the frontend and backend and is deployed through cloud both the backend and frontend

Java Library System

October 2022 – Dec 2022

Library System

Java

- Programmed a Library System that can keep records of students and books, alongside its core features such as borrowing and returning
- The system was developed through java and utilized java swing for its GUI

AFFILIATIONS

Xavier Computer Enthusiasts' League

August 2024 – May 2025

Office of Promotions and Creatives

Xavier University

- A member in the OPC department responsible for theming and creation of materials
- Assisted in Publication Materials

Xavier Computer Enthusiasts' League

August 2023 – May 2024

Office of Promotions and Creatives - Head

Xavier University

- Led the OPC Department
- Created Publication Materials from posters to certificates

Google Developer Student Clubs

September 2021 – May 2022

Office of Promotions and Creatives - Officer

Xavier University

- Member of the Creatives Department
- Created Publication Materials such as posters for events and video materials

SEMINARS AND TRAINING

Scholars Technopreneurship Training Program

May 2024 – November 2024

Trainee

Department of Science and Technology

Computer Science Student Assembly

February 3, 2024

Office of Promotions and Creatives - Officer

Xavier Computer Enthusiasts' League

Basic Orientation and Leadership Training Seminar (BOLTS)

September 10, 2023

Office of Promotions and Creatives - Officer

Xavier Computer Enthusiasts' League

EDUCATION

Xavier University

Cagayan de Oro, Philippines

B.S. in Computer Science

August 2021 – Present

Xavier University Senior High school

Cagayan de Oro, Philippines

STEM Strand

June 2019 – May 2021

AWARDS

- DOST Junior Level Science Scholarship Program
- Consistent Dean's Lister
- Magna Cum Laude
